

HILLSIDE CONSULTING ENGINEERS LIMITED

420 York Street

Fredericton, NB E3B 3P7

Tel: (506) 454-4455

Fax: (506) 454-7433

email: hcel@hcel.ca

Position:

Intermediate Bridge Engineer

Experience:

5-10 years in Bridge Design and/or Maintenance

Responsibilities:

Responsibilities include but are not limited to the following:

- Design of new highway, railway, and pedestrian bridge structures
- Inspection and rehabilitation design of existing highway, railway and pedestrian bridge structures
- Aid in the preparation of tender documents
- Coordinate and communicate effectively with clients

Skills and Qualifications:

The successful candidate must be able to work independently as well as effectively in a group within a small office setting. Time management skills are a must as the candidate will likely be working on multiple projects concurrently. Familiarity with pre-stressed concrete and structural steel is an asset. The candidate must be eligible for registration as a Professional Engineer in the Province of New Brunswick.

Contact Information:

Candidates meeting the above noted criteria can submit a cover letter and resume to:

James Wood, P.Eng. email: james.wood@nb.aibn.com
